

Little Wills Valley Stool

Randy originally designed this Signature piece as a combination table and seat for a very small office. This unique stool can serve as a small end table, a footrest, or as a place to sit.

The mortise and tenon joints of the seat are locked forever by the wedged tenons of the legs. The hand-stretched saddle leather naturally pulls the frame of the stool together.

The Little Wills Stool is available in dark brown or saddle tan leather. The leather and wood components are hand fitted and finished. The slightly curved stretcher is made with several bent laminations and can be made with the same material as the stool or other to provide contrast.

Each Little Wills Stool comes natural in color with a hand-rubbed oil-and-wax finish that is durable and easily maintained.

Wood Studio offers this Signature piece in a variety of native hardwoods, including walnut, cherry, maple, red and white oak, and ash. We are open to special requests for other select materials.

Each Signature Selection offered by Wood Studio is 100% handmade by the Cochrans. We guarantee that each piece will be free from defects in craftsmanship and materials for as long as the piece or the Cochrans are around. Wood Studio builds each piece to provide for generations of enjoyment.
